LINEA TRADIZIONE

Common wheat flour

MIGLIORATA

With “Linea Tradizione” flours, Mulino Padano offers all the authenticity needed to create the products that made our bread-making tradition world famous, such as Ferrara bread, Tuscan bread, Venetian “pan biscotto”, breadsticks, and focaccia bread. In order to create authentic

products, it is important to start from selected ingredients, and “Linea Tradizione” flours, processed with water, yeast and salt, will make you rediscover the taste of simplicity. This line includes “0” and “00” national flours, as well as “0” and “00” improved flours.

Product use

Our **Type “0” and “00” Migliorata** flours, in the Linea Tradizione range, are designed to meet the needs of every baker, with a product that can withstand all the direct bread-making methods typical of the Italian tradition. Their elevated protein content allows their use in recipes requiring longer proving times.

Ingredients

Selected common wheat, free from mycotoxins and other contaminants, subject to strict quality checks upon acceptance. To ensure purity and healthiness, wheat undergoes three cleaning stages and is screened with an advanced optical selector.

Grinding

Cleaned from all impurities, common wheat is ground in full respect of its characteristics and left to rest slowly and progressively, in order to obtain flours that are not thermally affected and are able to release all the aromas in the preparation of the finished products.

Shelf life and storage

Shelf life 12 months from production.
Store in a cool, dry, clean and well-ventilated place.
